D. Responsibility of Missouri Job Center Partners

Changing labor markets and advances in technology have revolutionized how businesses find talent and jobseekers look for work. Social media, online talent platforms, and professional networking sites are evolving rapidly, perpetuating shifts in labor market dynamics. Additionally, rising consumer expectations and global competition have transformed how business is conducted in most industries. Employers must move faster and more efficiently in order to stay ahead of (or at least keep up with) competitors. This makes it imperative for the public workforce system to continuously adapt and reframe strategies and policies designed to support employers and job seekers.

- The West Central Region Partners agree to establish a system that stands in stark contrast to the “traditional”/historical transaction-based model, whereby each agency operates its own business and job seeker services functions, and participants move from place-to-place seeking services. Instead, the goal is to create integrated locations and a unified structure and process of proactive, transparent, and effective job seeker and business services, orchestrated by a seamless collaboration of talent development and support agencies.
- The Partners agree to promote capacity building and professional development for staff in order to increase awareness and understanding of Partner programs and services in order to have a successful integrated system.
- The Partners will establish a meeting time each quarter to discuss progress towards the mission and goals. Discussions will center on:
 - Performance Measures
 - The effectiveness of customer flow and referral process
 - Policies, procedures, tools and technology to effectively collect and share data
 - Appropriate training and career pathway opportunities for target populations in the region
 - Workforce and expansion needs of employers
 - Opportunities in the region to partner

E. Data Sharing

Shared Technology and System Security

Partners agree that the use of high-quality, integrated data is essential to inform decisions made by policymakers, employers, and job seekers. Additionally, it is vital to develop and maintain an integrated case management system, as appropriate, that informs customer service throughout customers’ interaction with the integrated system and allows information collected from customers at intake to be captured once.

All Partners agree to:

- Share data in accordance with the State of Missouri Shared Data Plan, Office of Workforce Development Confidentiality Policy and local WDB Confidentiality Policy.
- Assure that all data and systems are secure and virus and malware protections are current.
- Cooperate with efforts to implement/expand the use of an integrated, technology-based intake and case management information system as required under WIOA.
- Participate and cooperate in data collection and reporting and other activities to track and evaluate performance of the local workforce development system using state and local performance accountability measures.

Core program Partners (WIOA Adult, Dislocated Worker, Youth; Wagner Peysner, Adult Education & Family Literacy, and Vocational Rehabilitation) will agree to share data/information and will collaborate to assure that all common primary indicators of performance for the core program partners in the West Central Region will be collectively achieved.

Six Primary Indicators of Performance

A. Employment Rate	The percentage of participants who are in unsubsidized employment during the second quarter after exit from the program (for title I Youth, the indicator is the percentage of participants in education or training activities, or in unsubsidized employment during the second quarter after exit)
A-1. Title I Youth Education and Employment Rate – 2 nd Quarter after exit.	The percentage of title I Youth program participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program
B. Employment Rate – 4 th Quarter after exit.	The percentage of participants who are in unsubsidized employment during the fourth quarter after exit from the program (for title I Youth, the indicator is the percentage of participants in education or training activities, or in unsubsidized employment during the fourth quarter after exit).
B-1. Title I Youth Education and Employment Rate – 4 th Quarter after exit.	The percentage of program participants who are in education or training activities, or in unsubsidized employment, during the fourth quarter after exit from the program.
C. Median Earnings – 2 nd Quarter after exit.	The median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program.
D. Credential Attainment	The percentage of those participants enrolled in an education or training program (excluding those in on-the-job training (OJT) and customized training) who attain a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation in or within one year after exit from the program. A participant who has attained a secondary school diploma or its recognized equivalent is included in the percentage of participants who have attained a secondary school diploma or its recognized equivalent only if the participant also is employed or is enrolled in an education or training program leading to a recognized postsecondary credential within one year after exit from the program.
E. Measurable Skills Gains	The percentage of program participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational, or other forms of progress,

	<p>towards such a credential or employment. Depending on the type of education or training program, documented progress is defined as one of the following:</p> <ol style="list-style-type: none"> 1. Documented achievement of at least one educational functioning level of a participant who is receiving instruction below the postsecondary education level; 2. Documented attainment of a secondary school diploma or its recognized equivalent; 3. Secondary or postsecondary transcript or report card for a sufficient number of credit hours that shows a participant is meeting the State unit's academic standards; 4. Satisfactory or better progress report, towards established milestones, such as completion of OJT or completion of one year of an apprenticeship program or similar milestones, from an employer or training provider who is providing training; or 5. Successful passage of an exam that is required for a particular occupation or progress in attaining technical or occupational skills as evidenced by trade-related benchmarks such as knowledge-based exams.
<p>F. Effectiveness in Serving Employers</p>	<p>WIOA sec. 116(b)(2)(A)(i)(VI) requires the Department of Labor and the Department of Education to jointly establish a primary indicator of performance for effectiveness in serving employers. The Departments are currently piloting three approaches designed to gauge the critical workforce needs of the business community. • Approach 1 - Retention with the same employer - addresses the programs' efforts to provide employers with skilled workers; • Approach 2 - Repeat Business Customers - addresses the programs' efforts to provide quality engagement and services to employers and sectors and establish productive relationships with employers and sectors over extended periods of time; and • Approach 3 - Employer Penetration Rate - addresses the programs' efforts to provide quality engagement and services to all employers and sectors within a State and local economy. Since this indicator is a new approach for measuring performance under WIOA's six core programs, the pilot program requires states to select two of the three approaches to report data that the Departments will use to establish a permanent indicator. States may also voluntarily develop an additional State-specific approach. The Departments will evaluate state experiences with the various approaches to identify a standardized indicator.</p>

Personally Identifiable Information (PII)

All parties acknowledge that program participant information and certain other types of information are considered confidential under federal and state law. All parties further acknowledge that service delivery and other activities conducted by the parties' staff members under this MOU will generate and involve the use of confidential information for more than one partner program. If an individual knowingly uses or discloses the data for an unallowable or unauthorized use, it is a criminal offense (in most cases a misdemeanor) punishable by a fine or jail time.

Partners' staff members who perform shared service functions in the Missouri Jobs Centers are not authorized to access PII of other partners' program participants unless the partner program specifically authorizes access in accordance with the requirements under the applicable federal and/or state regulations or if the participants give informed consent for the use of their data.

All parties will ensure that their respective staff members who will deliver services and carry out activities through the local workforce development system and in the Missouri Job Centers are properly informed and have completed training on the use, protection, disclosure, and disposal of confidential data as well as the criminal penalties for unauthorized use or disclosure under federal and state confidentiality laws.

Further, all parties will develop procedures to implement the following safeguards, which are common requirements across federal and state confidentiality laws, and will ensure that their respective staff members are effectively trained on such procedures and follow them.

1. Identifying the staff members who are authorized to access confidential data in the performance of their work under this MOU.
2. Authorizing access to such staff members in a written statement to be signed by the staff member that identifies and describes the confidential data, the authorized representative of the partner program that owns the data, the system that contains the data, the allowable uses of the data, the procedures for safeguarding the data, and the requirements, restrictions, and penalties under the applicable federal and state confidentiality laws.
3. Storing confidential data in an area that is physically safe from access via computer, remote terminal or any other means during duty hours, non-duty hours, or when not in use.
4. Segregating each partner program's confidential data from other data.
5. Applying federal encryption standards to any data that is kept in a portable format or emailed.
6. Restricting access of confidential data to only authorized employees and officials of the parties to this MOU who must access the data in the performance activities under this MOU.
7. Processing confidential data and records created from the information under the immediate supervision and control of authorized personnel to ensure that the data will be processed and utilized in a manner that will protect the confidentiality of the information.
8. Prohibiting disclosure of any confidential data to a third party without prior written permission from the authorized representative of the partner program responsible for the data.

9. Limiting collection and use of any information, systems, or records that contain personal identifying data to purposes that support programs and activities under this MOU, and, when possible, de-identifying data and presenting it in aggregate form for purposes such as evaluation or reconciliation.

III. Services to Be Provided

The purpose of this MOU is to articulate the roles and responsibilities of each Party in the creation of a seamless customer-focused service delivery network that integrates service delivery across programs, enhances access to services and improves long-term employment outcomes for individuals receiving assistance. The MOU provides a foundation for assuring alignment and coordination of policies and operations across programs, supporting a responsive service delivery system, enhancing access to program services that meet the workforce development needs of adults and lead to long-term employment outcomes. Programs and services will be coordinated and integrated where feasible by jointly serving common customers, supporting interagency in-service training and providing information and services that most directly meet the customer’s needs.

IV. Shared Funding of Infrastructure

A. One-Stop Operating Budget

The One-Stop Operating Budget is the financial plan that the One-Stop Partners, and Local WDB agree will be used to achieve the MOU's goals of delivering services in the West Central Region. The MOU contains, among other things, provisions describing how the costs of services provided by the One-Stop System (including career services and other shared services) and the operating costs of such System will be funded, including the infrastructure costs for the One-Stop System (WIOA sec. 121(c)(2)(A)). The One-Stop Operating Budget is the master budget that contains a set of individual budgets or components that consist of two (2) types of costs that are specifically outlined in the statute: infrastructure costs, defined in WIOA sec. 121(h)(4); and additional costs, which consist of shared operating costs and shared services that are related to the operation of the One-Stop Delivery System (but do not constitute infrastructure costs), described in WIOA sec. 121(i).

The MOU includes the One-Stop Operating Budget that contains both infrastructure costs and additional costs. A separate and unique budget has been developed and agreed upon for each location. The budget identifies shared cost divided among the Partners. The FTE model was used to determine shared infrastructure costs. The Partners agree to the overall system budget and each Partner's share of the budget, not just their own share.

Budget Components: The budgets include the infrastructure categories listed in the law and regulations (rent, utilities and maintenance, equipment, technology to facilitate access, and common identifier costs).

B. Other Contributors

The MOU does not include contributions made to the One-Stop System through other avenues, such as donations made by a non-partner entity (e.g., a local business donating computers for a learning lab). Third-party in-kind contributions are allowed and identified or offered as supplement to the operations of the Job Centers.

V. Funding of Services and Operating Costs

In accordance with the Workforce Innovation and Opportunity Act, all required One-Stop partner programs must contribute to the infrastructure costs and certain additional costs of the one-stop delivery system based on their proportionate use as required by 20 CFR 678.755, 34 CFR 361.755, and 34 CFR 463.755. A partner's contribution must be an allowable, reasonable, necessary, and allocable cost to the program and be consistent with the Federal Cost Principles set forth in the Uniform Guidance. Funding provided by the one-stop partners to cover operating costs, including infrastructure costs, of the one-stop delivery system must be based on the partner program's proportionate use of the system and relative benefit received.

Budgets are an attachment to this MOU. Partners will be billed on a monthly basis. Actual costs will be tracked and reconciled at least annually. In the event of any change in staff FTE's, during the course of this agreement, the budget worksheets will be amended to ensure equitable benefit among all one-stop partners. **As a result, this action could result in a lower or higher proportionate share for each partner identified in the cost share budget.**

VI. Systematic Referral Process for Job Center Customers

The One-Stop Operator is responsible for assuring that effective and customer friendly referrals are occurring in the West Central Region. Referrals will be made by various methods 1) via cross training where staff have been sufficiently trained on the services of some or all Partners so they can make an appropriate referral, 2) via direct linkage connection by phone or video conferencing to help a job seeker access services not available on site. A “direct linkage” cannot exclusively be providing a phone number or computer Web site or providing information, pamphlets, or materials.

In order to provide seamless delivery of services to custom, the Parties agree to the following referral principles:

1. Each party will have information on and receive training about the services of all Partner agencies within the One-Stop System.
2. Customers accessing services through the One-Stop System will receive assistance in determining which of the Partner agencies may have services that will benefit the customer and will be provided an appropriate referral and means to contact said Partner program.
3. Staff will make appropriate referrals depending on each customer’s individual needs, eligibility requirements, and other support services. Referrals will be made to Partners/outside agencies based on intake and assessment and a determination of appropriateness.
4. We agree that the Partners will conduct referrals for services in the following manner:
 - All customers referred for services will receive a written referral form with the date, time, and place of the appointment.
 - All appointments will be scheduled within three (3) working days.
 - The individual making the appointment will commit to actively follow up within two (2) working days of the scheduled appointment date to assure that Partner resources are being leveraged at an optimal level.

Job seekers and businesses must be able to access all information relevant to them via visits to physical locations as well as in virtual spaces, regardless of gender, age, race, religion, national origin, disability, veteran's status, or on the basis of any other classification protected under state or federal law.

Physical Accessibility

One-stop centers will maintain a culture of inclusiveness and the physical characteristics of the facility, both indoor and outdoor, and will meet the latest standards of accessible design and customer needs in the following ways:

- The location of the Comprehensive One-Stop Center is recognizable in a high-traffic area
- Access to public transportation is available within reasonable walking distance
- The location of a dedicated parking lot, with parking lot spaces closest to the door designated for individuals with disabilities

Programmatic Accessibility

Access to Programs and Services

All individuals will be given access to all required career services on site and the opportunity to explore occupations to understand the technical and physical requirements. Additional accommodations will be made, if necessary. Direct linkage is addressed in the referral process and will be with a designated staff member in-person at the partner program if not on-site. All Partners agree that they will not discriminate in their employment practices, services or programs on the basis of gender, gender identity and/or expression, age, race, religion, national origin, disability, veteran's status or those on public assistance, low income or who are basic skills deficient or on the basis of any other classification protected under state or federal law. Partners will assure that they have policies and procedures in place to address non-

discrimination and employment practices and that such policies and procedures have been disseminated to their employees and otherwise posted as required by law and these policies and procedures comply with the Americans with Disabilities Act of 1990 and its amendments. Partners will cooperate with compliance monitoring that is conducted at the Local level to ensure that all Job Center programs, services, technology, and materials are physically and programmatically accessible and available to all. Partners agree to promote capacity building and professional development for staff in order to increase awareness and understanding of serving individuals with barriers to employment and individuals with disabilities. All Partner staff members will be trained to provide services to all, regardless of range of abilities, mobility, age, language, learning style, or comprehension or education level. An interpreter will be provided in real time or, if not available, within a reasonable timeframe to any customer with a language barrier. Assistive devices, such as screen-reading software programs and assistive listening devices will be available to ensure physical and programmatic accessibility within the West Central Job Centers.

VII. Human Resources Management

The Partners agree to develop commonly accepted expectations for customer service and engagement that are compliant with each individual entity's employee policies. Each Partner will incorporate those expectations into their own employee-performance system and agree to conduct periodic performance reviews in accordance with the requirements of their organization.

Further, we agree that in the event disagreements arise, the proper chain of command will be followed and the staff member's employer of record will be called upon to help resolve issues. The formal Complaint and Grievance policy will be used if resolution is not reached.

All partners will agree that exchanged information will remain private and confidential in accordance with the existing confidentiality requirements of each partner program and in compliance with the confidentiality requirements of all applicable laws, regulations, and rules. All Job Center staff and management will follow policy set forth by the Office of Workforce Development and the policy of the WDB, as applicable. Authorized staff will receive training and sign the confidentiality statement. Correspondence sent by email and fax will adhere to the confidentiality statement as set forth in OWD Issuance 10-2022 or subsequent guidance.

Grievances and Complaints Procedure

The Partners agree to abide by the complaint and grievance policy and procedures as outlined in OWD Issuance 06-2021 to ensure enforcement of non-discrimination and equal opportunity provisions within the One-Stop System.

- Direct the disbursement of funds for workforce development activities pursuant to the requirements of WIOA.

XI. Duration, Modification and Revisions

The Partners agree that the terms of this Memorandum of Understanding becomes effective July 1, 2024 and will continue in effect until June 30, 2027 or such a time as any party will modify, extend, or terminate this MOU. The MOU will be reviewed annually and must be updated to reflect any changes in signatory official of the Board, One-Stop Partners, CEOs, or one-stop infrastructure funding. The agreed upon expiration date cannot exceed June 30, 2027.

Requests for modifications to the MOU must be made in writing to the WDB at least 30 days prior to the effective date of the requested change.

Severability

If any part of this MOU is found to be null and void or is otherwise stricken, the rest of this MOU shall remain in full force and effect until renegotiated or rewritten.

Amendment Procedures

Partners agree to the following amendment processes:

- A Partner Agency must provide thirty (30) days written notice to the other Partners to make amendments.
- A Partner Agency must inform the local board about amendments and in turn the local board will contact all Partners to this MOU.
 - Generally, amendment or modification of the MOU only requires the Partners to review and agree to the elements of the MOU that changed. Non-substantive changes to the MOU, such as minor revisions to the budget or adjustments made due to the annual reconciliation of the budget, do not require renewal of the MOU. Because this MOU is a “living document” that is likely to undergo changes over the next four years, changes to the MOU or any attachments that do not change the intent of the document will be considered minor revisions. Substantial changes, such as the removal or addition of a required partner organization or a change due to the election of a new Chief Elected Official will require renewal of the MOU. Renewal of the MOU requires all parties to review and agree to all elements of the MOU and re-sign the MOU.
- If disputes arise related to the terms of this MOU or IFA, the Partners agree to handle it at the lowest level possible. The dispute must be in writing (electronic or hard copy) and make specific reference to the portion of the MOU/IFA in debate. All actions taken to resolve the dispute(s) will be documented.
 - All attempts to resolve disputes among Partners will begin with negotiations between the disagreeing parties. Partners are expected to put forth good faith efforts in communication and compromise to resolve disagreements in a cooperative and timely manner.
 - Should the parties be unable to directly resolve their dispute, they will provide a written explanation about the matter to the local workforce development board. The Planning and Operations Committee will review the dispute and provide a written recommendation.

Per WIOA Section 121(h) and 20 CFR 678.725, local disputes related to funding of one-stop infrastructure costs are exempt from this process and will instead be addressed through application of the state one-stop funding mechanism determined by the Governor and subject to a state-level appeals process established by the Governor as described in OWD Issuance 11-2022.

XII. Termination

Any party to this agreement may cease participation in the agreement. Any party that intends to cease participation must notify the other parties affected by this agreement at least 30 days prior to the effective termination date. Termination by one or more of the Partners does not alter the terms of obligations of any other party to the agreement.
